## Environmental and Energy Usage Policy

Introduction: **Smt. Janakibai Rama Salvi College of Arts, Commerce & Science** recognizes the importance of environmental conservation and sustainable energy practices in contributing to a healthier planet and ensuring a better future for current and upcoming generations. As an educational institution, we are committed to minimizing our environmental footprint and promoting responsible energy consumption among our students, faculty, staff, and visitors. This policy document outlines our principles and strategies for environmental stewardship and energy efficiency.

### Environmental Policy:

1. **Compliance:** Smt. Janakibai Rama Salvi College of Arts, Commerce & Science is committed to complying with all applicable environmental laws, regulations, and standards relevant to our operations.
2. **Resource Conservation:** We will strive to minimize resource consumption by implementing practices such as waste reduction, recycling, and efficient water usage throughout our campus.
3. **Pollution Prevention:** We will take proactive measures to prevent pollution by adopting eco-friendly technologies and practices, and by properly managing hazardous materials and waste.
4. **Biodiversity Preservation:** Smt. Janakibai Rama Salvi College of Arts, Commerce & Science recognizes the importance of biodiversity conservation and will promote activities that contribute to the preservation of local ecosystems.
5. **Environmental Education:** We will integrate environmental education and awareness into our curriculum and campus activities to foster a culture of environmental responsibility among our students, faculty, and staff.

### Energy Usage Policy:

1. **Energy Efficiency:** Smt. Janakibai Rama Salvi College of Arts, Commerce & Science is committed to optimizing energy efficiency in all aspects of our operations, including building design, equipment selection, and operational practices.
2. **Renewable Energy:** We will explore opportunities to increase the use of renewable energy sources such as solar, wind, and geothermal energy on our campus.
3. **Energy Conservation:** We will promote energy conservation measures among our campus community through awareness campaigns, behavior change initiatives, and the implementation of energy-saving technologies.
